

Excerpt from 8/14/06 meeting notes

- Basic studies (like McDowell Group studies) that deal with numbers and dollars concerning visitor industry. Include other studies (business H)

The Steering Committee explains that they considered this as one of a number of “specific info” requests – this one and several others simply requested that specific studies were made available to the Stakeholders. The SC and Matthew tell the SH that every McDowell study is on the website and at the library; on the website, if you go to this item on the needed information grid, it will link to all the pertinent studies that are available. The Stakeholders agree that this satisfies the information request, and the card gets a red dot.
