

*Excerpt from 7/17/06 meeting notes:*

**Lisa Brendle has prepared a presentation on city sales taxes, which addresses 9 questions on the information chart.**

[Please also refer to Lisa's report, found as a downloadable from the data section.]

*7. City reports: sales tax, bed tax generated from visitors vs. locals – where does the money go? (Planning A)*

This question is not answered in this form, as there is no way to distinguish between taxes generated by visitors vs. locals. Lisa's report does include information about where bed taxes and sales taxes go in the city funds. SH agree to drop the part of the question about visitors vs. locals, and they agree they have enough information to close this topic.
