

Excerpt from 8/14/06 meeting notes

[See Mike's written report]

Mike Litman presents one question at a time, which is debriefed with the Stakeholders by Matthew.

Q2: Current resources from harbormaster/possible development of harbors? (Planning W)

In addition to what is listed, Mike adds: jurisdiction over waters from breakwater in eastern channel to some point in the Sound.

Everyone understands what Mike has presented, and no one has any concerns or additional questions for him about what he has reported. The Stakeholders agree to give this topic a red dot.
